THE PRESIDENT'S PROJUMENTON. President Cleveland has issued a

clamation declaring that inaumuch is it has become impracticable to enforce by the ordinary course of judicial proceedings the laws of the United States in the State of Illinois, and especially in the city of Chicago, a part of the Federal tallitary force has been employed to enforce the laws of the United States, protect their property the women did the largest share of the and remove obstructions to the mails.

The President therefore warns all riotops assemblages to disperse and all good citizens from taking part in swelling such assemblages or in any manner encouraging them by their presonce. The Federa, troops will act with all the moderation and forbearance possible, but they will accomplish their end, and in such cases they cannot disminate between rioters and those who emourage rioting by looking on

It is to be hoped that the President's clamation will obviate the bullets and bayonets.

ONE COURSE TO PURSUE.

It is to be regretted that Judge Ehrlich to decide what to do in the case of the wyer who is alleged to have obtained ave hundred dollars from a client on the pretense that the money was needed to "fax" the Court to give a judgment in her favor. It is to be regretted that he oneiders it necessary to "think over" the expediency of bringing the lawyer efore the General Term, on the ground that there will be only the unsupported charge of the client confronted by the ccused lawyer's sworn denial.

There are some matters that do not dmit of reflection. One of them is a thurge that a Judge on the bench has been bribut to make a decision in a rtain way in a case before him. Judge Ehrlich's reputation forbids any belief in a story reflecting on his honor and purity as a judicial officer. But it would be a great mistake if he should fall to iraist on a most thorough and searching nvestigation to discover whether any ember of the Bar would dare to triffe with his integrity in such a manner.

THAT IREAL B! ANUR.

As "The Evening World" perceived, Dr. Jenkins's "diplomatic" denial that had received any "telegram" from the Treasury Department refusing t Mr. Croker to leave the Majentic p violation of the rules, covered what may be called politely a taradiddis. It was meant to imply that such a reques and not been made and refused.

The Acting Secretary of the Treasure plains that the request was made and comptly refused because it did not ap would have been justified in extending my such privilege to Mr. Croker. D. ankins quoted as a precedent the per ssion granted to the daughter of ate William Walter Phelps to leave the

mmer to hasten to her father's bedat as Judge Phelps had been United sates Minister to Germany, was a sember of the highest court in Ne Jersey and was dying, there was a slight difference between his daughter's case and that of the ex-Tammany bess and surfman, Richard Croker,

IS THE LAW EMPORCED!

It is just now the season for excur sions. Steamers leave our docks daily growded with pleasure-seekers for every conceivable spot in the rivers and bay The rafety of these crowds deserved nome consideration, especially when it of Major C. W. Frequent inspections of the machinery are provided for. Officers are appointed and paid for seeing to the proper enforcement of these laws, and for their strict observance by the owners of steamers.

Do these officers do their duty? Are the laws strictly enforced? They cught to the company will have an election of the Editor. The Company will have an election of the Editor.
